## Career and Projects

Creative Director, Osmosis

March 13 - August 14

Head of graphic design and UX for a small tech startup focused on improving medical education. Branded Osmosis by developing a logo, icons and a color/font scheme for the website, apps and publicity materials, then implemented this design through front-end coding.

Advocated for the user's experience, creating appealing design that worked with the code and the needs of the business. Used wireframes and walk-throughs to demonstrate ideas.

Freelance artist and designer

02 - present

Paintings and other works are now in private collections worldwide  
Provided concept sketches to companies for product design ideas

Programmed prototype viewer for anatomy education

Used Unity3D, C#, and JavaScript

Framer/Acting frame shop manager, Hobby Lobby 05-06
